

TEAM MANAGER TECHNICAL MEETING MINUTES

Friday 28 March 2025

Alan Bell, WMA Vice President Competition:

Written question:

CAN: request to improve the time table 10KM Race Walk again by getting most athletes finished earlier in the day? Answer: we have done all we can for the benefit of the athletes; at this late stage we can't change it again.

CAN: Would there be a possibility to provide a warm up facility in North Parking garage (fifth level is largely unused). Answer: yes, we will try, but it is unlikely that permission will be granted for this.

In West End there are no possibilities for warming up in the shade.

High Jump run ups could be exchanged between two groups if necessary.

Sandy Pashkin, WMA Technical Information Manager:

There were some errors online regarding the call room time table for field events. They are corrected now and posted in the callroom.

Alan: about relays: please get your forms in!

Relay conduct: this is not a permanent track: there is a step up and a step down.

For the 4 x 200m. relays there is no space on the outside to collect athletes who are waiting for their exchange. And there is also no possibility from the inside.

The solution is: only lanes 1 to 5 are used for running. Athletes who will run as 3th and 4th will be waiting in lane 6.

Michael Serralta, Competition Director Stadia:

In connection with any DQs three I-pads will record all races..

Archie Jenkins, Competition Director Non Stadia:

Presentation 10K Road Race (Saturday 29th March).

Sandy: After 5 days of competition 47 Championship Records and 18 World Records are set.

CAN:

About 'Protests and Appeals': the presentation states: 'within 30 minutes after publishing the results, contact the referee orally, then a further 2 hours to put in a written appeal'

From when the additional 2 hours will start?

The 2 hours start after the protest to the referee: so, 30 minutes after publishing the results, then oral protest to the referee and after that still 2 hours.

Next (and last) Team Managers Meeting: Saturday 29 March 2025 at 9:00 am.
